March 10, 2004
A Collaborative Effort

- General Services Administration
- Smart Card Alliance
- Government Smart Card Project Managers
- Industry Leaders
- Academic Research Specialists
- BearingPoint Team
Congratulations, GSA.

The Smart Card Handbook has been successfully updated

A comprehensive resource for federal smart card project teams and Government Agency management

- Core technology evaluation
- Overview of current legislation and policy drivers
- Technical standards and interoperability issues
- Capabilities, benefits and business drivers
- Report on current agency implementations and lessons learned
- Reference for Key Decisions
- Reference for GSA Smart Card Contracts
- Guidance on Managing Task Orders
- Survey of Federal Smart Card Projects
- Robust Index

© 2002 BearingPoint, Inc.
Government Smart Card Handbook

Please see the GSA smart.gov website at http://www.smart.gov/smartgov/whats_new.cfm
Or
http://www.smart.gov/
Objectives

- Update the handbook technically
- Conduct Interviews – Government, Industry & Academia
- Restructure the handbook for target audience
- Streamline the handbook
- Add new sections
  - review of smart cards vice complementing technologies
  - status of major Government users & departments
- Draft Revised Handbook
- Reviews (Industry via Smart Card Alliance, IAB, Major Users)
- Copy Editing
## EXECUTIVE SUMMARY

<table>
<thead>
<tr>
<th>1. INTRODUCTION</th>
<th>ES-1</th>
</tr>
</thead>
<tbody>
<tr>
<td>1.1 SMART IDENTIFICATION CARD VISION AND GOALS</td>
<td>7</td>
</tr>
<tr>
<td>1.1.1 Achieving Interoperability Across Federal agencies</td>
<td>8</td>
</tr>
<tr>
<td>1.1.2 Open Government System Framework</td>
<td>10</td>
</tr>
<tr>
<td>1.1.3 Flexibility</td>
<td>10</td>
</tr>
<tr>
<td>1.1.4 Interagency Cooperation</td>
<td>11</td>
</tr>
<tr>
<td>1.2 GSA'S ROLE</td>
<td>11</td>
</tr>
<tr>
<td>1.3 HANDBOOK AND SMART ACCESS COMMON ID CONTRACT PURPOSE AND ORGANIZATION</td>
<td>12</td>
</tr>
<tr>
<td>1.3.1 Purpose</td>
<td>13</td>
</tr>
<tr>
<td>1.3.2 Organization</td>
<td>13</td>
</tr>
</tbody>
</table>

## 2. SMART CARD TECHNOLOGY

<table>
<thead>
<tr>
<th>2.1 SMART CARDS AND RELATED TECHNOLOGIES</th>
<th>15</th>
</tr>
</thead>
<tbody>
<tr>
<td>2.1.1 Overview</td>
<td>15</td>
</tr>
<tr>
<td>2.1.2 Types of Chip Cards</td>
<td>16</td>
</tr>
<tr>
<td>2.1.3 The Secure Microcontroller Chip</td>
<td>18</td>
</tr>
<tr>
<td>2.1.4 Smart Card Read/Write Devices</td>
<td>20</td>
</tr>
<tr>
<td>2.1.5 Smart Card Interfaces: Contact and Contactless Cards</td>
<td>22</td>
</tr>
<tr>
<td>2.1.6 GSC-4S 2.1: Contact and Contactless Interoperability</td>
<td>25</td>
</tr>
<tr>
<td>2.1.7 Multiple Technology and Multiple Interface Cards</td>
<td>26</td>
</tr>
<tr>
<td>2.1.8 Multi-Application Cards</td>
<td>28</td>
</tr>
<tr>
<td>2.1.9 Synopsis of Technical Standards</td>
<td>30</td>
</tr>
<tr>
<td>2.1.10 Current Legislation and OMB Guidance</td>
<td>35</td>
</tr>
<tr>
<td>2.1.11 Smart Card Implementation Considerations</td>
<td>36</td>
</tr>
</tbody>
</table>

| 2.2 COMPONENTS OF A SMART CARD SYSTEM | 39 |
| 2.3 CARD LIFE CYCLE MANAGEMENT ARCHITECTURE | 40 |

<table>
<thead>
<tr>
<th>2.4 CAPABILITIES OF THE SMART IDENTIFICATION CARD FOR AGENCIES</th>
<th>46</th>
</tr>
</thead>
<tbody>
<tr>
<td>2.4.1 Identification</td>
<td>47</td>
</tr>
<tr>
<td>2.4.2 Smart Cards and Building Security: Physical Access Control</td>
<td>47</td>
</tr>
<tr>
<td>2.4.3 Smart Cards and IT Security: Logical Access Control</td>
<td>48</td>
</tr>
<tr>
<td>2.4.4 Digital Signatures</td>
<td>48</td>
</tr>
<tr>
<td>2.4.5 Biometrics and Smart Cards</td>
<td>52</td>
</tr>
<tr>
<td>2.4.6 Other Value-Added Services</td>
<td>63</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>2.5 BENEFITS OF IMPLEMENTING A SMART CARD SYSTEM</th>
<th>64</th>
</tr>
</thead>
<tbody>
<tr>
<td>2.5.1 Why Implement a Smart Card System?</td>
<td>65</td>
</tr>
<tr>
<td>2.5.2 Relative Merit of Smart Cards vs. Alternative Technologies</td>
<td>68</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>3. AGENCY IMPLEMENTATIONS</th>
<th>74</th>
</tr>
</thead>
<tbody>
<tr>
<td>3.1 AGENCY SMART CARD REQUIREMENTS</td>
<td>74</td>
</tr>
<tr>
<td>3.2 CURRENT STATUS OF SMART CARD DEVELOPMENT OF MAJOR USERS AND DEPARTMENTS</td>
<td>75</td>
</tr>
<tr>
<td>3.2.1 Introduction</td>
<td>75</td>
</tr>
<tr>
<td>3.2.2 Current and Planned Smart Card Implementations</td>
<td>76</td>
</tr>
<tr>
<td>3.2.3 Identity Management Solutions</td>
<td>80</td>
</tr>
<tr>
<td>3.2.4 User Support</td>
<td>81</td>
</tr>
<tr>
<td>3.2.5 Summary</td>
<td>82</td>
</tr>
</tbody>
</table>

## 4. KEY DECISIONS

<table>
<thead>
<tr>
<th>4.1 DECIDING ON A SMART CARD</th>
<th>83</th>
</tr>
</thead>
<tbody>
<tr>
<td>4.2 DETERMINING THE APPLICATIONS, CAPABILITIES AND OPTIONS OF THE CARD PLATFORM</td>
<td>85</td>
</tr>
</tbody>
</table>
# What’s in the Handbook

4.2.1 Technology Capability
   - 4.2.1.1 Existing Legacy Environment .................................................. 85
   - 4.2.1.2 PKI Strategy ............................................................................... 85
   - 4.2.1.3 Biometric Strategy ................................................................. 86
4.2.2 Sample Applications ............................................................................ 89

4.3 Key Agency Profile-Driven Decisions ..................................................... 94

5. Planning & Implementation Issues ........................................................... 98
5.1 Technical Issues ..................................................................................... 98
5.2 Management and Organizational Issues ................................................. 103
   - 5.2.1 Card Management ....................................................................... 104
   - 5.2.2 Shifting Roles and Responsibilities ............................................ 107
   - 5.2.3 Training ...................................................................................... 110
   - 5.2.4 Customer Service ...................................................................... 111
   - 5.2.5 Privacy Issues ............................................................................ 111
   - 5.2.6 Operating Rules and Procedures ................................................ 112
5.3 Re-engineering the Business Processes .................................................. 113
5.4 Financial Issues .................................................................................... 114
   - 5.4.1 Cost Factors ................................................................................. 114
5.5 Lines of Communication and Agency Support ....................................... 117
5.6 Quality Assurance and Contractor Management ................................... 117
5.7 Card System Interoperability ............................................................... 122
   - 5.7.1 Interoperability Specification Development Process ................. 123
   - 5.7.2 Smart Card Interoperability Architecture ................................... 123

6. Writing the Task Order ............................................................................. 126
6.1 Technical Issues ..................................................................................... 126
6.2 Financial Issues .................................................................................... 129
6.3 Policy and Programmatic Issues .............................................................. 131
6.4 Environmental Concerns ..................................................................... 133
6.5 Publicizing the Awarded Task Order ..................................................... 134
6.6 Task Order Process .............................................................................. 134
   - 6.6.1 Overview of the Task Order ........................................................ 135
   - 6.6.2 The Evaluation Process Summarized .......................................... 137
   - 6.6.3 Notification and Debriefing of Unsuccessful Offerors ................. 142

7. Summary Recommendations ...................................................................... 143
   - 7.1 Technical Recommendations ........................................................... 143
   - 7.2 Organizational and Management Recommendations .................... 146
   - 7.3 Legal Recommendations .................................................................. 147
   - 7.4 Cost Recommendations ................................................................. 147
   - 7.5 Standards and Interoperability Recommendations ....................... 148
   - 7.6 Lessons Learned ............................................................................. 149
   - 7.7 Looking Forward – Implications of an Employee Multi-Application Smart Card Identification Platform .............................................................. 150
7.8 Maintaining On-Going Progress ............................................................. 151

8. Appendix A – Glossary of Terms .............................................................. 151
10. Appendix C – Index of Smart Card Web Sites ........................................ 151
11. Appendix D – References ...................................................................... 151
12. Appendix E – Interoperability Standards .............................................. 151
13. Appendix F – Agency Profile Questionnaire ......................................... 151
14. Appendix G – Agency Profile ............................................................... 151
15. Index ..................................................................................................... 151
Interviews & comments
(From Government, Industry & Academia)

Tim Baldridge – National Aeronautics and Space Administration
Ralph Biller – BearingPoint Inc.
Dallas Bishoff – Veterans Affairs AAIP Team
Joseph Broghamer – Department of Homeland Security
Michael Brooks – General Services Administration
Michael Butler – DoD Common Access Card Program
Fred Catoe – Veterans Affairs AAIP Team
Pamela Corry – Department of Homeland Security
Patty Davis – Department of Agriculture
Russ Davis – Federal Department of Insurance Corporation
Peter Dauerlis – General Services Administration
Portia Duschinger – National Aeronautics and Space Administration
Mary Dixon – Department of Defense
Bob Donelson – Department of Interior
Ron Dorman – Defense Information Systems Agency
James Dray – National Institute of Standards and Technology
John de Ferrari – General Accounting Office
Keith Fitzner – Central Intelligence Agency
Jack Finberg – General Services Administration
Liz Fong – National Institute of Standards and Technology
George Fortwengler – Department of Health and Human Services
Damon Goddard – General Services Administration
Scott Glaser – General Services Administration
David Hauge – BearingPoint Inc.
Peter Han – General Services Administration
Gordon Hannah – BearingPoint Inc.
Daryl Hendricks – General Services Administration
Barbara Hoffman – Department of the Navy
Bill Holcombe – General Services Administration
Lee Holcomb – Department of Homeland Security
Keith Hughes – Department of Homeland Security
Paul Hunter – Transportation Workers Identification Credential
Joel Hurford – United States Patent and Trademark Office

Randy Vanderhoof – Executive Director, Smart Card Alliance
Cathy Medich – Government Smart Card Handbook Committee Chair, Smart Card Alliance

Bob Beer – Datacard Group
Linda Brown – Infineon Technologies
Alex Glakoumis – Atmel Corporation
Kevin Kozlowski – XTEC, Incorporated
Bob Merkert – SCM Microsystems
Neville Pattinson – Axalto

Kevin Hurst – Office of Science and Technology Policy
Lisa Kalinowski – BearingPoint Inc.
Jeff Kindschuh – Veterans Affairs AAIP Team
July Kresgi – Department of Agriculture
Lolli Kull – Department of State
Steven Law – General Accounting Office
Greta Lehman – Department of Defense – Army
Graham MacKenzie – Department of Defense
Amin Magdi – World Bank Group
Eugenia McGroarty – DoD – Defense Logistics Agency
John Mercer – Department of State
Carey Miller – BearingPoint Inc.
Mary Mitchell – General Services Administration
Martin Monahan – World Bank Group
John Moore – General Services Administration
William Morrison – National Aeronautics and Space Administration
Trung Nguyen – Department of Treasury
Steve Parsons – Transportation Security Administration
Sonya Pee – General Services Administration
Arthur Purcell – United States Patent and Trademark Office
Ronald Pusz – BearingPoint Inc.
Fred Riggle – United States Geological Survey
Teresa Schwarzhofer – National Institute of Standards and Technology
John G. Sindelar – General Services Administration
Judith Spencer – General Services Administration
Daric Stiplic – BearingPoint Inc.
Michael Sulak – Department of State
David Temoshok – General Services Administration
Janel Valverde – BearingPoint Inc.
Martin Wagner – General Services Administration
Dr. Jim Wayman - National Biometric Testing Center, San Jose State
William Windsor – General Services Administration
James Zok – Department of Transportation – Maritime Administration

Joe Pilozzi – Philips Semiconductors
James Russell – MasterCard International
Carlos Santos – IBM
Rick Uhrig – Gemplus
Bob Wilberger – Northrop Grumman IT
